

CAPABILITY STATEMENT

Evidence you can trust. Decisions you can defend.

Research, data analytics, monitoring and evaluation, training, and digital solutions for organisations that need reliable evidence and practical action.

Lagos, Nigeria | dymetricensure.com | info@dymetricensure.com

Measurement with meaning.

DYMETRICENSURE LIMITED was established on a simple premise: important decisions deserve evidence that is credible, clear and useful. We connect research, analytics, digital development and capability strengthening to help clients move from fragmented information to well-designed systems, reliable analysis and confident action.

Integrated delivery

Research, data, digital tools and learning support configured around one assignment.

Field-to-dashboard

Practical attention to collection, validation, analysis, visualisation and use.

Quality by design

Visible methods, assumptions, safeguards and limitations.

Capability transfer

Products and training designed for sustained use by client teams.

Company information

Technical depth. Clear outcomes.

01 MEL systems and strategy

Results frameworks, indicators, learning agendas, data flows and reporting systems.

02 Research and evaluation

Mixed-method studies, baselines, outcome assessments and defensible evaluation products.

03 Data analytics and dashboards

Cleaning, validation, integration, analysis and interactive decision-support products.

04 Data quality and governance

Assessments, verification protocols, privacy controls and corrective-action systems.

05 Training and capability development

Applied training in research, analytics, MEL, visualisation and evidence use.

06 Advisory and decision support

Independent technical guidance for interpreting evidence and managing uncertainty.

07 Websites and digital solutions

Responsive websites, data portals and practical digital tools.

Built around the decision, not the template.

International development	Agriculture and value chains	NGOs and foundations
Public institutions	Growing businesses	Workforce and sports analytics

OUR DELIVERY APPROACH

01 Frame	Clarify the decision, users, constraints and evidence gap.
02 Design	Select proportionate methods, tools and safeguards.
03 Build	Collect, develop, analyse and quality-assure.
04 Translate	Convert evidence into useful products and action.
05 Strengthen	Transfer capability and support sustained use.

Data products built for decisions.

1,369	517	52	119
Individuals profiled	Farmers represented	MSPs tracked	Agro-dealers captured

Agricultural stakeholder dashboard

Consolidated participant categories, locations and demographic information into a monitoring view for coverage analysis.

Programme performance dashboard

Structured indicators and trends into an interactive product for routine programme monitoring.

HR analytics dashboard

Organised workforce metrics into accessible views for examining employee composition and organisational patterns.

Football league intelligence dashboard

Converted fixtures, standings and performance data into an interactive league-reporting experience.

Portfolio figures reflect the displayed project dataset and are not presented as company-wide impact claims.

Specialist capability. Integrated delivery.

DYMETRICENSURE configures each assignment around the capabilities required, with clear responsibility for technical direction, quality assurance and delivery coordination.

Khinde Oteju - Principal Statistician

Statistical methods, study design and quality assurance.

Goodnews Uwalaka - Operations Manager

Delivery planning, coordination and quality control.

Temioluwa Olurebi - Data Manager

Data quality, analytics and reporting.

Panshak Gopep - IT Expert

Digital systems, infrastructure and reliability.

Grace Onwusonye - Field Coordinator

Field operations, data collection and community engagement.

LEADERSHIP & ACCOUNTABILITY

Every assignment has a designated engagement lead, documented technical review and a visible record of assumptions, approvals and material changes. This gives clients clear ownership and a defensible decision trail from brief to close-out.

START A CONVERSATION

Share your assignment objective, delivery location, expected timeline and the decision your organisation needs to make. DYMETRICENSURE will respond with focused questions and a practical next step.

info@dymetricensure.com | <https://dymetricensure.com>

Commercial scope, fees, timelines and payment terms are agreed separately for every engagement.
